Vehicle Wire Harness Test Unit

Part #	Description
50918	<ul style="list-style-type: none"> • Tests all tow vehicle functions including ground, auxiliary power lead, brake controller, directional and backup lights. • Adapts to 4-way flat and 6 or 7-way RV blade round. • Heavy-duty, 20' extension cord is included. • Optional 7-way round heavy-duty adapter also available.

Trailer Wiring Test Unit

Part #	Description
50928	<ul style="list-style-type: none"> • Tests all trailer functions including left turn, brake, tail and backup lights, electric brake and auxiliary power. • Adapts to 4-wire flat and 6 or 7-way RV blade round. • Includes battery terminal clips. Can be used with any 12 volt battery. • Unit is short circuit proof.

Rechargeable Battery

Part #	Description
50955	Rechargeable battery for #50928

RV/Trailer Light Circuit Tester w/Built In Test Battery

Part #	Description
TH51-B	Tests 4 pin, 6 pin and 7 pin RV vehicles and trailers. Checks for: Shorts, opens & ground problems, cross shorts, amp draw, high resistance circuits, interchanged circuits, electric brakes.

Probe Tester

Part #	Description
18027	Complete with heavy duty insulated alligator clip and 4½-foot ground wire. Ideal for cars, trucks, SUV's, motorcycles, RV's and small engines.

Circuit Tester

Part #	Description
404593	Flat-Lite plug mount, circuit tester, and plug saver all in one. Secures 4-way flat when not in use. Provides water tight protection. Built-in circuit testers with red L.E.D.s indicating proper connection.

Wire Tester

Part #	Description
18179	Plugs into 7-way flat pin "RV Style" plug and tests all functions. L.E.D. circuit indicators light up to show that the vehicle wiring is functioning properly.

7-Way Trailer Emulator

Part #	Description
6562	7-way Trailer Emulator is used for the proper installation and set-up of a brake control when a trailer is not readily available. Brake control set-up is accomplished using a built-in load module that will simulate electric magnet brakes on a trailer.
